## **SeaRose FPSO Completes its Turnaround**

**St. John's, Newfoundland and Labrador** – Husky Energy Inc. announced today that the Company has completed its planned 2008 maintenance turnaround for the White Rose oil field production vessel, the *SeaRose FPSO*.

The 13-day turnaround, which was originally scheduled for August, was completed on February 4 as per the maintenance schedule and without any lost time incidents. All work scopes, including clean-out of the low pressure separator, were successfully executed. The White Rose oil field is currently producing at rates of approximately 130,000 barrels per day.

Husky Energy is the operator of the White Rose oil field, and holds a 72.5 percent working interest in the project. Petro-Canada holds the remaining 27.5 percent.

*Husky Energy is a Canadian based, integrated energy and energy-related company headquartered in Calgary, Alberta. Husky Energy is publicly traded on the Toronto Stock Exchange under the symbol HSE.*
